

ANJUMAN – I – ISLAM'S
M. H. SABOO SIDDIK COLLEGE OF ENGINEERING
DEPARTMENT OF COMPUTER ENGINEERING

M. H. Saboo Siddik

College of Engineering

Established in 1985, Anjuman-I-Islam M.H. Saboo Siddik College of Engineering popularly known as Saboo quickly established itself as the largest and foremost Engineering college in South Mumbai. To prepare the students for life and work in an information-rich technology-driven world, the college offers various professional courses.

»» **What is a Hackathon?**

A Hackathon is an event where people come together to solve social, technological, and real-world challenges. Participants use Information Technology, creativity, and innovative ideas to develop effective solutions. It encourages teamwork, collaboration, problem solving, and the use of emerging technologies. Hackathons provide a platform to learn, innovate, and create meaningful solutions for society.

MOTIVATION FOR HACKATHON

Strengthen problem solvers. Help welcoming newcomers to the community. Provide something new. Provide a space and a time for participants to make headway on problems they are interested in. Make the name of our college known across multiple parts of the city. (Since the participants will be from all across Mumbai and also other cities). Help our college to form contacts with various companies in the Technical Industry.

Offline Hackathon

To provide a real-time development experience to the programmers, we are organizing the hackathon in a offline mode, wherein the participating teams will have to hack the solution by reporting to our college and crack the solution for their problem statements. All the necessary arrangements of programming at the venue will be done by our organizing team.

What is ERR_404?

Organized by the Computer Department of Anjuman-I-Islam's M.H. Saboo Siddik College of Engineering, this **36-hour** hackathon is a call for all cyber nerds and tech-savvy learners to showcase their skills, execute innovative ideas, and compete in a dynamic environment. The hackathon highlights teamwork, leadership, adaptability, brainstorming, and the ability to build a working prototype. It provides participants with a platform to collaborate, innovate, and turn creative ideas into impactful solutions.

THANK YOU!

At Programmers Club, MHSSCE, we believe that innovation begins when curious minds come together to build, experiment, and solve. ERR_404 7.0 is more than just a hackathon it is a platform where ideas transform into solutions, challenges spark creativity, and technology becomes a force for change. With your support, we aim to empower passionate innovators to think beyond the ordinary, collaborate fearlessly, and create meaningful solutions. Together, let's turn ideas into impact and challenges into breakthroughs.
